

SLM

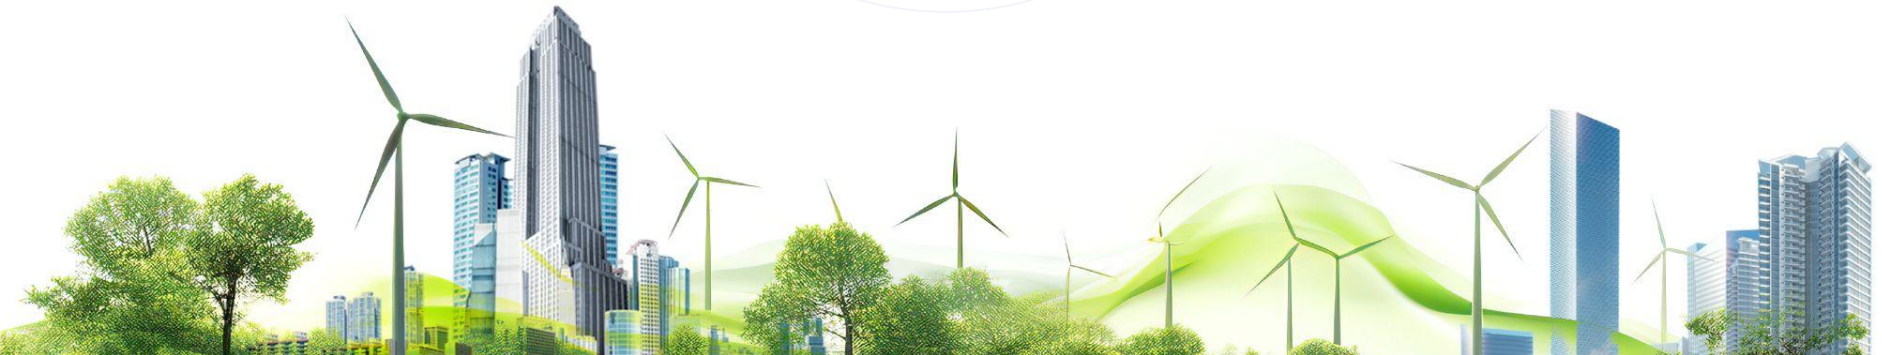

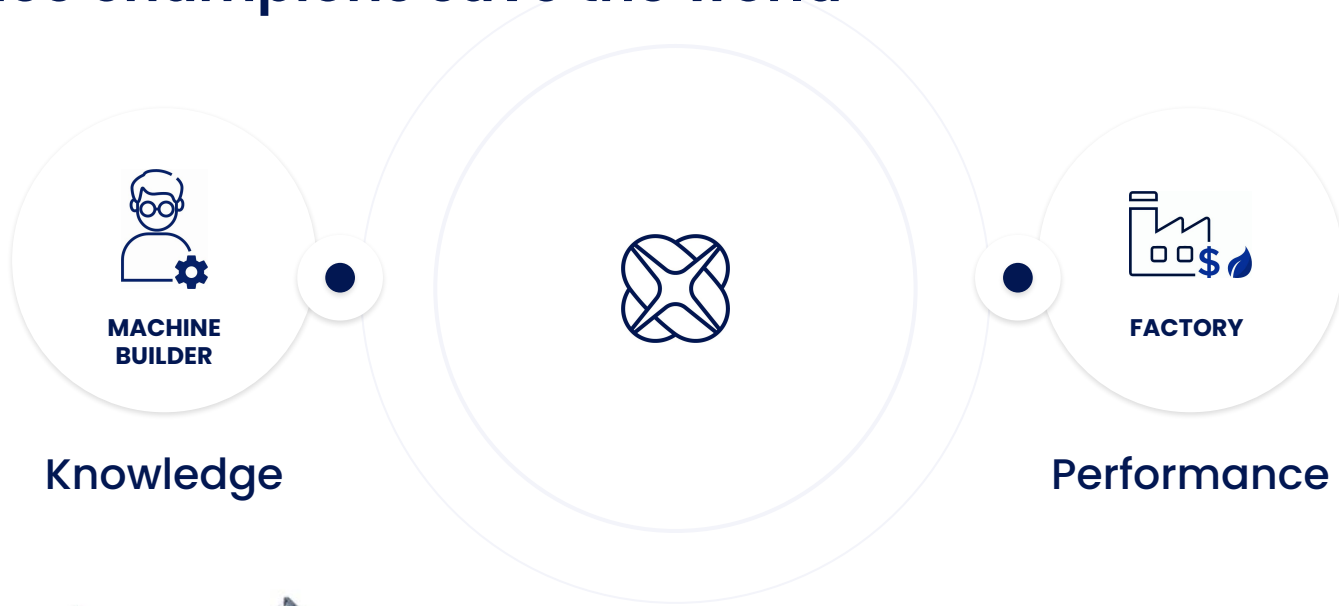

# The Future of IXON

Vision and Innovation

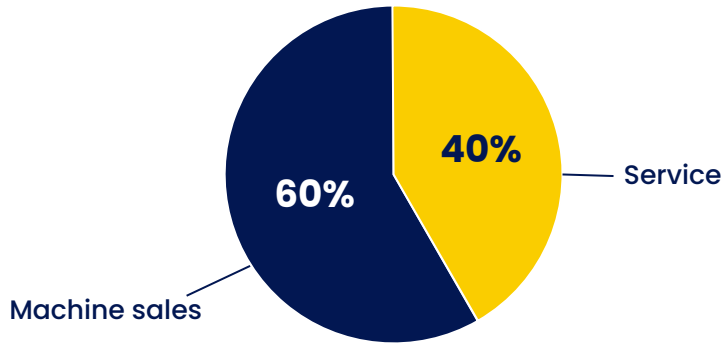

Once the machine has left, you're blind.

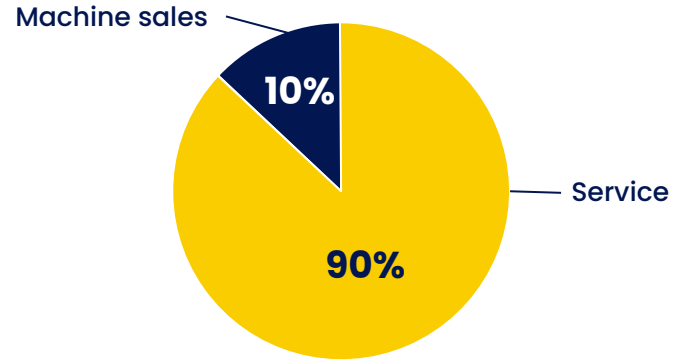

# Service champions save the world

# After-service. Grows revenue and profit.

Revenue 

Profit 

# After-service challenges

**Dealing with  
cybersecurity**

**Service tools &  
Integrations**

**Access machine  
data**

**Collaborate with  
customers**

IXON Cloud App

## Service Logbook

Record all service actions in a central overview for you and your colleagues.

Partner Cloud App

## Digital Twin

Visualize the real-time position of your machine components with a 3D model.

Partner Connector

## Power BI Connector

Analyze machine data in Power BI. Automatically connect IXON data to Power BI, using a 90-day free trial.

Partner Cloud App

## Spare Parts Webshop

Webshop integration that allows your customers to easily order spare parts in IXON Cloud.

IXON Cloud App

## Active Alarms Overview

Get an overview of active alarms, including start time, of all machines in a single dashboard.

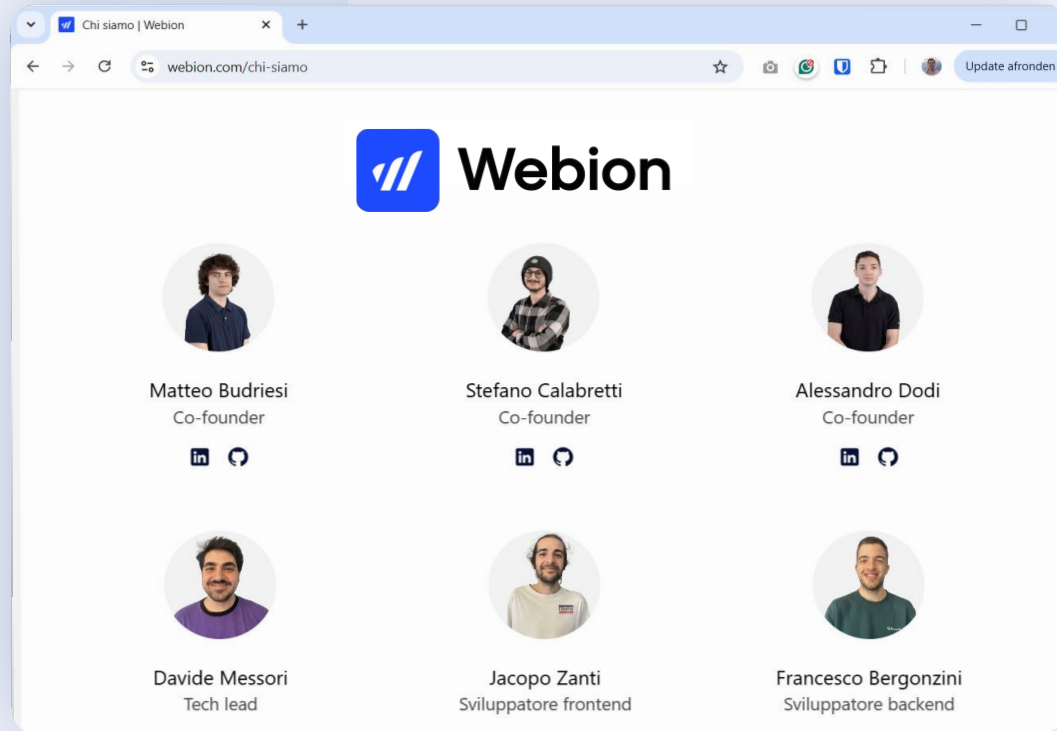

IXON Cloud App

## State Analysis

Analyze the state in which your machine or a module within your machine is operating.
